Table of Contents

VOLUME 82 (1992)

MAIN ARTICLES

Long-term EEG-video-audio monitoring: computer detection of focal EEG seizure patterns
F. Pauri, F. Pierelli, G.-E. Chatrian and W.W. Erdly (U.S.A.) 1
EEG coherence as a predictor of spike propagation
A. Glass, R.A. Zappulla, J. Nieves and S.P. Diamond (U.S.A.) 10
Partial status epilepticus: short-term prediction of seizure outcome from on-line EEG analysis
J. Reiher, F. Grand'Maison and C.P. Leduc (Canada) 17
Comparison and correlation of surface and sphenoidal electrodes with simultaneous intracranial recording: an interictal study
D.A. Marks, A. Katz, J. Booke, D.D. Spencer and S.S. Spencer (U.S.A.) 23
Detection of neonatal seizures through computerized EEG analysis
A. Liu, J.S. Hahn, G.P. Heldt and R.W. Coen (U.S.A.) 30
Localization of the sources of EEG delta, theta, alpha and beta frequency bands using the FFT dipole approximation
C.M. Michel, D. Lehmann, B. Henggeler and D. Brandeis (Switzerland) 38
Decreased alpha bandwidth responsiveness to photic driving in Alzheimer disease
A.L. Politoff, N. Monson, P. Hass and R. Stadter (U.S.A.) 45
Macular dysfunction in multiple sclerosis revealed by steady-state flicker and pattern ERGs
B. Falsini, A. Bardocci, V. Porciatti, R. Bolzani and M. Piccardi (Italy) 53
Electrophysiological evidence of different abilities to form cross-modal associations in children with autistic behavior
J. Martineau, S. Roux, J.L. Adrien, B. Garreau, C. Barthélémy and G. Lelord (France) 60
On the possibility of independent activation of bilateral mismatch negativity (MMN) generators
P. Praamstra and D.F. Stegeman (The Netherlands) 67
EEG spectra in dyslexic and normal readers during oral and silent reading
D. Galin, J. Raz, G. Fein, J. Johnstone, J. Herron and C. Yingling (U.S.A.) 87
Sleep on a shortening day/night schedule
T. Åkerstedt, K.I. Hume, D.S. Minors, J.M. Waterhouse and S. Folkard (Sweden, U.K.) 102
Frequency-domain localization of intracerebral dipolar sources
B. Lütkenhöner (F.R.G.) 112
Detailed evaluation of evoked potentials in Wilson's disease
G. Grimm, C. Madl, R. Katzenschlager, W. Oder, P. Ferenci and A. Gangl (Austria) 119
Tactile interference differentiates sub-components of N20, P20 and P29 in the human cortical surface somatosensory evoked potential
S.J. Jones, T. Allison, G. McCarthy and C.C. Wood (U.S.A.) 125
Morphological characteristics of the scalp far-field potentials evoked by median nerve stimulation in infants and children
K. Mutoh, T. Okuno and H. Mikawa (Japan) 133
Vector analysis of brain-stem auditory evoked potentials in patients with multiple sclerosis and subtentorial tumors
P. Coutin Churchman, S. Oramas and A. Balmaseda Conde (Cuba) 139
Auditory brain-stem response in zitter rats with genetic spongiform encephalopathy
F. Ochikubo, H. Gomi, K. Kitamura, Y. Yoshikawa and K. Yamanouchi (Japan) 145
The electrocorticogram in relation to physiology and behavior: a new analysis
C.H. Vanderwolf (Canada) 165
Interaction of afferent impulses in the human primary sensorimotor cortex
J. Huttunen, S. Ahlfors and R. Hari (Finland) 176
Generator sites of spontaneous MEG activity during sleep
S.-T. Lu, M. Kajola, S.-L. Joutsiniemi, J. Knuutila and R. Hari (Finland) 182
Sequential changes in electroencephalogram continuity in very premature infants
K. Goto, K. Wakayama, H. Sonoda and T. Ogawa (Japan) 197
Abnormality of background EEG determined by the entropy of power spectra in epileptic patients
T. Inouye, K. Shinosaki, H. Sakamoto, S. Toi, S. Ukai, A. Iyama, Y. Katsuda and M. Hirano (Japan) 203
Quantitative EEG changes due to cerebral vasoconstriction. Indomethacin versus hyperventilation-induced reduction in cerebral blood flow in normal subjects
V. Kraaier, A.C. Van Huffelen, G.H. Wieneke, H.B. Van der Worp and P.R. Bär (The Netherlands) 208
Pupillary light reflex latency in patients with multiple sclerosis
H.A.M. Van Diemen, M.M.M.M. Van Dongen, J.J.P. Nauta, P. Lanting and C.H. Polman (The Netherlands) 213
The laplacian analysis of the pattern onset response in man
V. Manahilov, F.C.C. Riemslag and H. Spekreijse (The Netherlands) 220

Estimates of visually evoked cortical currents
S.P. Ahlfors, R.J. Ilmoniemi and M.S. Hämäläinen (Finland) 225
Epileptiform activity in chronically isolated cerebral cortex in humans
S.J.C. Pierre-Louis and F. Morrell (U.S.A.) 248
Detection and evolution of rhythmic components in ictal EEG using short segment spectra and discriminant analysis
P. Hilfiker and M. Egli (Switzerland) 255
Changes in cortical activity when subjects scan memory for tones
L. Kaufman, S. Curtis, J.-Z. Wang and S.J. Williamson (U.S.A.) 266
Cortical DC potential shifts accompanying auditory and visual short-term memory
W. Lang, A. Starr, V. Lang, G. Lindinger and L. Deecke (Austria) 285
Properties of neuronal activity in cortex and subcortical nuclei of the human brain during single-word processing
N.P. Bechtereva, Y.G. Abdullaev and S.V. Medvedev (Russia) 296
Event-related desynchronization: the effects of energetic and computational demands
F. Boiten, J. Sergeant and R. Geuze (The Netherlands) 302
Endogenous event-related potentials as indices of dementia in multiple sclerosis patients
B.S. Giesser, M.M. Schroeder, N.G. LaRocca, D. Kurtzberg, W. Ritter, H.G. Vaughan and L.C. Scheinberg (U.S.A.) 320
An event-related potential study of controlled and automatic processes in 6–8-year-old boys with attention deficit hyperactivity disorder
P. Robaey, F. Breton, M. Dugas and B. Renault (France, Canada) 330
Intermodal selective attention. I. Effects on event-related potentials to lateralized auditory and visual stimuli
D.L. Woods, K. Alho and A. Algazi (U.S.A., Finland) 341
Intermodal selective attention. II. Effects of attentional load on processing of auditory and visual stimuli in central space
K. Alho, D.L. Woods, A. Algazi and R. Näätänen (U.S.A., Finland) 356
ERP components related to stimulus selection processes
M.D. Paz-Caballero and E. García-Austt (Spain) 369
Vestibular short latency responses to pulsed linear acceleration in unanesthetized animals
T.A. Jones (U.S.A.) 377
Multimodality imaging and intracranial EEG display for stereotactic surgery planning in epilepsy
L. Lemieux, S. Lester and D. Fish (U.K.) 399
Sequential EEG mapping may differentiate "epileptic" from "non-epileptic" rolandic spikes
W. Van der Meij, A.C. Van Huffelen, G.H. Wieneke and J. Willemse (The Netherlands) 408
Regional coherence and the transfer of ictal activity during seizure onset in the medial temporal lobe
R.B. Duckrow and S.S. Spencer (U.S.A.) 415
Automatic EEG interpretation: a new computer-assisted system for the automatic integrative interpretation of awake background EEG
M. Nakamura, H. Shibasaki, K. Imajoh, S. Nishida, R. Neshige and A. Ikeda (Japan) 423
Influence of lateral gaze on electroencephalographic spectral power
B. De Toffol, A. Autret, B. Gaymard and E. Degiovanni (France) 432
Electroencephalographic studies in workers exposed to solvents or pesticides
E.J. Jonkman, A.W. De Weerd, D.C.J. Poortvliet, R.J. Veldhuizen and H. Emmen (The Netherlands) 438
Effect of the cholinesterase inhibiting substance galanthamine on human EEG and visual evoked potentials
G. Holl, M. Straschill, T. Thomsen, J.P. Fischer and H. Kewitz (F.R.G.) 445
Low contrast stimuli enhance PERG sensitivity to the visual dysfunction in Parkinson's disease
A. Peppe, P. Stanzione, F. Pierelli, E. Stefano, P.A. Rizzo, M. Tagliati and C. Morocutti (Italy) 453
Varying expressions of alerting mechanisms in wakefulness and across sleep states
L.D. Sanford, A.R. Morrison, W.A. Ball, R.J. Ross and G.L. Mann (U.S.A.) 458
Frontal DC potentials in auditory selective attention
S. Asenbaum, W. Lang, A. Egkher, G. Lindinger and L. Deecke (Austria) 469
Relation of a negative ERP component to response inhibition in a Go/No-go task
E. Jodo and Y. Kayama (Japan) 477

SHORT COMMUNICATIONS

Measurement of interhemispheric time differences in generalised spike-and-wave
P.J. Allen, S.J.M. Smith and C.A. Scott (U.K.) 81
Neuromagnetic mismatch fields to single and paired tones
R. Hari, J. Rif, J. Tiihonen and M. Sams (Finland) 152
Very high-frequency rhythmic activity during SEEG suppression in frontal lobe epilepsy
P.J. Allen, D.R. Fish and S.J.M. Smith (U.K.) 155
Computer-assisted placement of electrodes on the human head
J.F. Echallier, F. Perrin and J. Pernier (France) 160
Unilateral 14 and 6 Hz positive bursts
A. Beydoun and I. Drury (U.S.A.) 310
Prediction of the side of hand movements from single-trial multi-channel EEG data using neural networks
G. Pfurtscheller, D. Flotzinger, W. Mohl and M. Peltoranta (Austria) 313
Relationship between vertex potentials and magnitude of pre-pain and pain sensations evoked by electrical skin stimuli
J. Brennum and T.S. Jensen (Denmark) 387
A simple format for exchange of digitized polygraphic recordings
B. Kemp, A. Värri, A.C. Rosa, K.D. Nielsen and J. Gade (The Netherlands, Finland, Portugal, Denmark) 391

REVIEW ARTICLE

Design principles for computerized EEG monitoring
R.P. Lesser, W.R.S. Webber and R.S. Fisher (U.S.A.) 239

BOOK REVIEWS

Evoked potential manual: a practical guide to clinical application, 2nd revised edition
edited by E.J. Colon and S.L. Visser 164
$GABA_B$ receptors in mammalian function
edited by N.G.Z. Bowery, H. Bittiger and H.-R. Olpe 394
Physiology, pharmacology and development of epileptogenic phenomena
edited by M.R. Klee, H.D. Lux and E.-J. Speckmann 394
Neuronal networks of the hippocampus
by R.B. Traub and R. Miles 394
Neurobiology of opioids
by O.F.X. Almeida and T.S. Shippenberg 395

EDITORIALS

Editorial comment
G.G. Celesia (U.S.A.) 237
A consensus statement on relative merits of EEG and MEG
F. Mauguière (France) 317

Letters to the Editor 85

Society Proceedings 1P, 6P, 10P, 12P, 15P, 37P, 66P, 74P, 83P, 87P, 89P, 93P, 95P, 99P, 101P
